PROJECTS

Vaarthahub | Flutter, ASP.NET Core Web API, MS SQL Server

MAR 2026 – JUL 2026

<https://github.com/thisisdevikasunilkumar/Vaarthahub.git>

- Created a smart newspaper distribution system using Flutter and ASP.NET Core Web API.
- Implemented Admin, Agent, Delivery Partner, and Reader modules with RESTful APIs.
- Integrated AI and ML-based analytics for demand forecasting, route optimization, and scrap management.
- Automated billing workflows and incorporated a Malayalam chatbot for enhanced user interaction.

Procezo | HTML, CSS, JavaScript, Python (Django), MySQL

SEP 2025 – NOV 2025

https://github.com/thisisdevikasunilkumar/MCA-Mini_Project.git

- Developed an Employee Monitoring and Productivity Management System using Python, Django, and MySQL.
- Integrated facial recognition-based login and logout functionality with emotion detection for user engagement analysis.
- Designed an Admin Dashboard and Staff Module to manage attendance records and employee analytics.
